

# Our top 3

An exceptional fireplace, an elegant crystal vase and a smart cable detector have all caught our attention this week

**Fire starter ...** The price might be a bit steep, but we could not go past the good looks of the new EcoSmart Zeta fireplace. Winner of a 2009 Australian International Design Award, it is fuelled by denatured ethanol and has a steel swivel base. **Zeta fireplace**, from \$10,590, from EcoSmart Fire

**Showstopper ...** A chic crystal vase should always be on hand for those unexpected bunches of flowers which, let us be honest, do not arrive often enough. **Finery clear vase**, \$99.95, from Villeroy & Boch

**Hidden danger ...** Play it safe when doing a bit of DIY around the home with these handy DIY devices from Bosch which can detect cables, live wires and metal frames before you drill. **PDO 6**, \$69, and **PDO Multi**, \$99, from Bosch

## If only I had...

**Karen Muller** started her interior design business, Real Living Interiors, after the positive response she received to the styling of her own house when it went up for sale. She says the best part of her job is supporting clients through the design process so they end up with cohesive interiors that reflect their own style.

**Set of paper vases** I love their texture and organic shape and they would look perfect on my lime-washed console. They're also made of recycled paper. ● Cortina paper vases, from **Papaya**, \$69.95 to \$89.95, [papaya.com.au](http://papaya.com.au)

**Carver Chair** I love the contrast between the flocked dark fabric and the soft lines of the turned legs on this French provincial-style chair ● Marlina Oval Back Carver Chair from **Xavier Furniture**, \$1227, [xavierfurniture.com.au](http://xavierfurniture.com.au)

**Dining chair** These palissandre wood and woven white leather chairs are beautiful. ● Roxy dining chair from **Sentosa Designs**, \$900, [sentosa.com](http://sentosa.com)
